

Le candidat Malheureux à la présidentielle du 07 octobre passé, Cabral Libii à réagir à chaud après le retrait de la CAN TOTAL 2019 au Cameroun par la CAF

Mes chers compatriotes

,Le Cameroun vit un jour sombre de son histoire. Notre pays, le Cameroun référence planétaire du football, vient de se voir retirer l'organisation de la coupe d'Afrique des Nations, édition 2019. Quelle déception !

Quelle contrition ! Une annonce qui sonne comme une douche froide au moment où le peuple camerounais se mobilisait pour montrer au monde entier ses talents, ses acquis socioculturels, son hospitalité légendaire. Il ressort qu'à l'exception de la minorité des compatriotes excédés sans doute par la récupération politique du Gouvernement, qui a milité davantage elle aussi pour des raisons politiques, afin que l'organisation de la CAN soit retirée au Cameroun, le peuple dans sa majorité est outré ce Soir.

Déçu de l'incompétence de ceux qui nous dirigent. Ceux-ci sont incapables d'organiser plus de quarante années après, une compétition de football. Oui, les institutions chargées de la préparation de la CAN ont brillé par une incompétence inégalable.

Finally, those who exercise power are not competent in matters of electoral fraud. The forfeiture of October 7, 2018 attests without contest. Dear compatriots, I call you to be strong in the trial, the hour is not to mope with pain but we must draw the consequences of such humiliation. This situation has the advantage of reminding us of our responsibility in the choice of those who lead us.

Do those who have decided not to participate in the electoral process in 2018, are you not sad today? Do you not commit the same errors in 2019 and let those who have stopped humiliating our country continue their decadent work?

The government is responsible for this failure, but the people must correct the course at the next elections. You deserve to have leaders of stature, but it is your duty to get involved. No government in the world can do anything against an electoral tide.

One can win the victory of a few voters, but it is more difficult to do so when they are numerous. Let this sadness lead us to make good decisions. We invite those who have wished for this painful situation to respect the pain of patriots who suffer.

We also demand that, without delay, Monsieur Paul Biya, beneficiary of the forfeiture of October 7, 2018, who has affirmed that Cameroon would be « ready for the day », explain to the Cameroonian people what led to this national humiliation on television which in all logic must lead to his resignation.

The day is coming when the energies of Cameroonians will be freed to the eyes of the world. May God bless Cameroon. Cabral LIBII » Cameroonians are waiting for the reactions of the president of the republic Paul Biya as the climate is tense following the withdrawal from the CAN 2019.
